

Mykola Dykyi

UI/UX Designer with **3+ years** of commercial experience, working in teams ranging from 2 to 20 members. Designed web & mobile interfaces for various sectors, including AI Tools, Fintech, Travel Tech, Healthcare and E-Commerce.

Every project owned end-to-end — from early wireframes through iterations to final handoff — accessibility-first, AI-assisted and built in close collaboration with Product, Engineering and Marketing teams.

Experience

Web Design Sun

[Go to company →](#)

UI/UX Designer | Nov 2025 – Aug 2026

- Delivered **8+ projects** across **6** product domains (AI Tools, Content Tech, Fintech, Travel Tech, Healthcare, E-Commerce) — covering web & mobile experiences.
- Automated large-scale design operations with **Claude + Figma API**: migrated **480** color nodes and **translated 1,000+** text nodes programmatically, compressing weeks of manual work into days.
- Designed a subscription fitness platform end-to-end (web + mobile + tablet) — **30+ screens**, a token-based design system of **135+ components**.
- Designed a B2B lead-generation website built around upfront pricing and a 5-step quote calculator — increasing inbound leads by **18%** post-launch.
- Built and maintained scalable Figma design systems — components, variables, variants and semantic color tokens — reducing feature development time by **27%**.

Flowers Kyiv (e-commerce)

UI/UX & Web Designer (Contract) | Mar 2025 – Sep 2025 (6 mos)

- Redesigned website which led to a **19%** increase in conversion rate.
- Implemented in **Wix Studio**, adapted for desktop & mobile.
- Analyzed over 10 competitors to identify the best UI practices to implement them in the design.

Mio Wind Massage

UI/UX Designer (Contract) | Sep 2024 – Mar 2025 (6 mos)

- Designed a website from scratch, covering full UI/UX process over **4 weeks**.
- Developed a visual style using 2-font system and a 3-color palette designed for clarity and accessibility (WCAG compliant).
- Collaborated with the front-end engineer to ensure a quality delivery.
- Prepared a style guide and component library for developer handoff.
- Created **18 responsive layouts** for desktop, tablet, and mobile.

Freelance

UI & Web Designer | Oct 2022 – Sep 2024 (2 yrs)

- Designed landing pages and illustrations for local businesses — **8 projects** delivered, mostly through word-of-mouth and repeat clients.
- Handled the full cycle independently: brief, references, design in Figma, and handoff or no-code implementation.

Education

National Technical University of Ukraine “Igor Sikorsky Kyiv Polytechnic Institute”

Master's Degree — Information and Communication Technologies | 2024 – 2025

Bachelor's Degree — Information and Communication Technologies | 2020 – 2024

Skills

Design

Product Design, Design Systems, B2B, B2C, SaaS, Design Tokens, Mobile-first, Interaction Design, Micro-interactions, Visual Design, Design Thinking, Agile / Scrum, Wireframing, Lo-Hi Fidelity Mockups, Prototyping, Components, Variables, Variants, Accessibility (WCAG 2.1), Design Automation, Dark/Light Mode, Responsive Design, Android, iOS

Research

User Flows, User Interviews, Usability Testing, A/B Testing, CRO, Product Metrics, Data-Driven Design, Information Architecture, Journey Mapping, Competitor Analysis, Heuristic Evaluation

Software

Figma, Claude AI, Photoshop, Illustrator, FigJam, Notion, HTML/CSS, Wix Studio, Affinity

Languages

Ukrainian – Native
Russian – Fluent
English – C1
German – B1

Other skills

Presentation & Storytelling, Cross-functional Collaboration

Interests & Hobbies

Video editing, Photography, Brazilian jiu-jitsu, Reading (UX, Psychology, Business)
